EMPLOYMENT HISTORY

UI/UX Design
November 2020 – January 2022

Created and designed a website called 'Medical Journal'. Worked both on the front end and back end of the website using programming languages(python, java, HTML, and CSS).

- Designed a useful and elegant digital experience for a website helping in the field of medicine and healthcare from start to finish(research, design, test, implement) as the lead.
- In less than 2 months designed eloquent flow and structure of the website along with a fully functioning module for communication
- Fostered collaboration and consistency alongside team members.
- Presented website to a board of members, answering questions and receiving feedback for the same.

Website report: https://bit.ly/3uhOowG
